

## Color Expansion Module for VIP-6040PT

### Highlights

- Large 960 x 540 color graphic LCD
- 20 programmable keys, each with a dual-color LED
- 6 daisy-chain modules for 240 programmable buttons
- 2 control keys for fast switch pages
- Rich features, each with a different icon
- Compatible with PLANET VIP-6040PT business color IP phones

### Flexibly Extending VoIP System by up to 260 Programmable Lines

PLANET VIP-EXT-40 voice line expansion module is designed to work with PLANET VIP-6040PT, an enterprise color IP phone, which can enhance the flexibility of VoIP system. The VIP-EXT-40 features 40 fully-programmable buttons, in which each comes with dual-color LED, and is controlled by the VIP-6040PT via RJ-45 cable.

### Enhanced, Full-Featured Business IP Phone

The VIP-6040PT can expand the capability of your VoIP phone to a whole new level. These function keys support Call Hold, Call Park, Multi-function Pickup, Redial, Call Return, Forward, Call Transfer, Caller ID Display, Do Not Disturb (DND), Conference, Speed Dial, Voicemail, Message, BLF, Shared Line, Private Hold, Multiple Functions, Public Hold, and more.

*Photo Caller ID, Color Icon*

The VIP-6040PT comes with color icons for different functions to enable you to identify the functions easier. User can also upload photo to BLF extension to “see” the call status. Integrated with PLANET VIP-6040PT advanced enterprise IP phone, the VIP-EXT-40 is perfect for receptionists, call center agents, administrative assistants, executives and power users who need to monitor and manage a large volume of calls on a regular basis.

*Busy Lamp Field (BLF)*

The VIP-EXT-40 supports Busy Lamp Field (BLF) function that, via the lights on the phone, enables users to easily identify the status of other phones which are connected to the same IP PBX, such as busy, idle, ringing, etc. The connected IP PBX must also support BLF feature. The BLF function is helpful for a receptionist on the front desk to route all incoming calls smoothly.
